No. 224.—The following resolution of the Government of India is republished:—

HOME DEPARTMENT.

POLITICAL.

Draft, the 12th December 1914.

No. 2251-2864.—In pursuance of the orders contained in the Resolution of the Government of India in the Home Department, No. 2231-2810, dated the 6th December 1910, the Government-General in Council is pleased to issue the following instructions with regard to certificates of identity.

2 Every native of India who anticipates proceeding out of India in foreign countries is strongly urged, before leaving, to furnish himself with an authentic certificate of identity, in the form appended to this Resolution, signed by the head of the district (in a Presidency Town and in the town of Rangoon, the Commissioner of Police) or in the case of residents of British India, and by the Political Officer in that of residents of Native States. In the case of a student the certificate should be signed by the head of his last school or college and recommended by the District Officer (in a Presidency Town and in the town of Rangoon, the Commissioner of Police) or Political Officer as the case may be.

Appeals for assistance by destitute Indians who desire repatriation and by students who, owing to unimproved circumstances, are unable to complete their course of education cannot be dealt with satisfactorily unless the parties are in a position to produce evidence of identity. The possession of a certificate of identity will be especially useful in young men of good family, as it may enable the Secretary of State to obtain for them medical and other facilities.

Those who are desirous, however, of travelling in countries where a passport will be necessary are advised to furnish themselves with such a document also before leaving India, in lieu of, or in addition to, a certificate of identity. It should be remembered that no person is entitled to a passport, as of right, on the ground that he is a British subject, and the production before authorities outside India of a certificate of identity, unless supplemented by documentary evidence of respectability, is not sufficient to ensure that a passport will be granted.

Form of Certificate of Identity.

1. Name of applicant.....
2. Father's name and caste.....
3. Residence.....
4. Age of applicant.....
5. Nationality of applicant*.....
6. Social or pecuniary status of father or (guardian).....
7. Date or probable departure of applicant from India.....
8. Object of applicant's visit to England (Europe).....

Signature of District Officer (in a Presidency Town, the Commissioner of Police or Political Officer, or head of school or college.)

Notes.

* 1. If a British subject by birth or by naturalisation (or a subject of a Native State).
† Commissioners of the District or Political Officer should be obtained on certificate as agreed by heads of schools or colleges.

Notes.—Holders of certificates of identity intending to apply subsequently in England or elsewhere for a passport, or call a foreign country are warned that no person is entitled to a passport as of right on the sole ground that he is a British subject. The production of a certificate of identity, therefore, will not entitle him to assistance in securing the grant of a passport, unless it is supplemented by documentary evidence of respectability, certified by a Local Government or other authority competent to issue passports in India, certifying that the holder is fit and proper person to receive a passport.

11. The executive management of any land in Class "B" (3), (4) or (5) may be entrusted to the Government Authority, subject to the following conditions, namely:—

(1) that such transfer of management confers upon the Government Authority no proprietary rights in, and no power to sell, exchange or give away, the land; and that the Government of India may impose such restrictions as they consider necessary in the public interest on the use or occupation of any particular piece of land so entrusted to the management of the Government Authority;

(2) that the Government Authority shall have no power to occupy or use the land for the purposes of the Act or for its own purposes without the sanction of the Government of India; but that land required for the aforesaid purposes shall be transferred to Class "C" and vested in the Government Authority by the Government of India in accordance with the provisions of rule 9;

(3) that one quarter of the annual rent payable for the land, when disposed of by lease, and one quarter of the proceeds on such sales shall collectively be credited to the Government of India and the remainder to the Contemnent Fund; provided that the Government of India may vary the proportion of the income from land payable to the Contemnent Fund in any particular instance, when they are satisfied that the ordinary proportion of those quarters is, when combined with the income which the Contemnent Authority might reasonably be expected to derive from other sources, either insufficient to enable the Contemnent Authority to maintain the full standard of unimproved adaptation, or such as to enable the Contemnent Authority to improve property greater than is strictly necessary for the maintenance of such a standard of adaptation or to reduce the rent-rate of taxation below a reasonable level;

(7) that the Government of India shall be entitled to reserve direct management of the land, or of any part thereof, or to reduce the proportion of the income therefrom payable to the Contemnent Fund in cases in which in the opinion of the Government of India there has been serious mismanagement on the part of the Contemnent Authority;

(8) that it shall not be obligatory on the Contemnent Authority to maintain the management of more land than it deems fit to dispose of.

12. The executive management of all land in the Contemnent which has not been entrusted to the management of the Contemnent Authority, shall be reserved to the Ministry of the Government of India under clause (7) of rule 11, or which does not vest in the Contemnent Authority, shall be entrusted to the Ministry of the Government of India; provided that the management of land actually occupied by any department of the Government shall vest in that department in the absence of any direction to the contrary from the Government of India.

13. The following conditions shall apply to the lease of land disposed of by the Contemnent Authority under rule 11—

(1) The Contemnent Authority shall maintain a register, in the form prescribed in schedule III, of all land in class "B" (1), (4) and (5) which has been entrusted to its management. This register shall be known as the Contemnent Authority's Land Register, and shall be prepared annually with effect from April 1st so as to show the annual descent in the shape of root from building site and other land.

(2) Building sites shall collectively be disposed of by lease for a maximum period of thirty years as the first instance renewable at equal intervals up to a maximum period of ninety years. The lease shall be subject to annual rent which shall be fixed in the manner prescribed in clause (4) and which shall be liable to revision at each renewal of the lease. An initial premium shall be charged on the lease and the lease shall be put up to public auction for sale to the person who agrees to pay the highest amount as premium.

(3) Building sites shall be divided into plots of classification at variable rates in two classes:—
I.—Plots of one quarter of an acre and over.
II.—Plots of less than one quarter of an acre.

An extract from the Contemnent Authority's Land Register showing the available building sites shall accordingly shall be open to inspection by the public in the Contemnent Office.

(4) Applications for building sites shall be submitted to the Executive Officer of the Contemnent in the printed form provided in schedule IV. Every application shall specify the situation of the land required, its exact purpose for which it is wanted and the area of land in the Contemnent, if any, already held by the applicant; and shall be accompanied by a ground plan of the proposed building. Subject in any direction and by-laws made by the Contemnent Authority under section 151 or section 154 of the Act, applications for sites in class I shall also be accompanied by detailed plans and specifications of the proposed building; and applications for sites in class II shall be accompanied by a general description of the proposed building.

(5) The Executive Officer of the Contemnent shall by the application without delay before the Contemnent Authority. The Contemnent Authority may reject the application for reasons to be recorded in writing, and an entry shall thereupon be made accordingly in the application form and the form shall be filed in the manner prescribed by clause (14) (2).

(6) If the Contemnent Authority resolves that the application may be accepted, the Executive Officer shall proceed to have the site surveyed and estimated, if necessary, and, with reference to the standard table of rates prepared under rule 10, shall fix the particular rate of reward rent to be charged and such reserve price for the premium as the lease as may appear to be reasonable. In no case shall the reserve price so fixed be less than the value of the site.

(7) The reserve price shall be calculated so as to include the cost, in any, of surveying and estimating the site and a proportion of any expenditures that may have been incurred in preparing and laying out land, including the site under application, for building purposes. The cost of such survey and estimation shall be deducted from the price eventually realized as premium and repaid to the depositor.

(8) The Executive Officer shall then publish a notice, in the form prescribed in schedule V, stating the date on which, the time and place at which, and the conditions under which, the lease of the site applied for will be sold.

(9) On the date and at the place and place appointed, the Executive Officer shall proceed to sell the lease by auction to the person who agrees to pay the highest amount as premium; provided that in no case shall the lease be sold unless the reserve price fixed under clause (8) has been reached.

(10) The successful bidder shall be required to deposit immediately 10 per cent of the amount of his bid and to sign an agreement committing to the deposit in case the balance of the price is not paid within thirty days of the completion of the auction.

(11) The Executive Officer shall report the result of the auction immediately to the Contemnent Authority for its approval. Thereafter the proceedings shall be forwarded to the Collector for his counter-signature, and if the Collector concurs, the sale shall be deemed to be duly confirmed; provided that if the estimated market value of the site exceeds Rs. 5,000, the approval of the Officer Commanding in Chief, the Command, and if it exceeds Rs. 10,000

Appraisal.—For the purpose of this clause, the market value shall be estimated, as far as possible, on the basis of actual sales of unoccupied land for building purposes in the locality, but if the market value cannot be estimated on such basis, it shall be taken to be 20 times the annual value of the site. In calculating the annual value, the rent fixed, as well as the premium received by the auction, shall be taken into account.

(12) In exercise of the powers conferred on him by clause (11), the Collector, before expressing his recommendation, shall satisfy himself,

If he is not satisfied on either of these points, he shall return the proceedings to the Contemnent Authority with a recommendation that the proceedings be stopped; and thereupon fresh proceedings shall be taken and all the foregoing provisions of this rule shall apply to such fresh proceedings.

If the Collector considers that the disposal of the site itself is for any reason prejudicial to the public interest, he may, subject to any general instructions that the Local Government may issue regarding the limits within which he should exercise his discretion, return the proceedings to the Contemnent Authority with a statement of his reasons for doing so and a request that the matter may be reconsidered in consultation with his recommendations; and, in the event of the Contemnent Authority failing to agree with his recommendations, the proceedings shall be submitted for the action of the Officer Commanding-in-Chief, the Command, if the estimated market value of the site does not exceed Rs. 5,000, and of the Government of India in all other cases.

(13) Notwithstanding anything contained in clause (2) to (11), the Contemnent Authority may, in exceptional cases for reasons of a public nature to be recorded in writing and subject to the approval of the Government of India, dispense with the deposit of the cost of survey and demonstration as prescribed by clause (7) or with the auction of the land as prescribed by clause (9), or with both, and may lease any site by private agreement at such rate of rent and on payment of such premium as the Government of India may approve in such case.

(b) A lease of a building site in perpetuity may be granted by the Contemnent Authority in the form prescribed in Schedule IX and in the manner prescribed in clause (13) above; provided that no such lease shall be granted without previous consultation with the Collector and unless the Government of India are satisfied that the site is needed for a definite public or religious purpose and that the use of the more favourable form of lease prescribed in Schedule IX is justifiable.

The Executive Officer shall also, with reference to the table of rates prepared under rule 10, fix a reserve price for the rent of each separate holding, which shall not be disclosed to the public, and as the date and at the time and place appointed shall put up the lands in auction to the highest bidder. REVENUE NOTIFICATIONS.

NOTIFICATIONS UNDER THE MADRAS ABRASI ACT.

RULES FOR THE SURVEYORS OF BRICKWORK.

No. 6.—In virtue of the power delegated under clause XIII (4), (8) and (10) of Government Notification No. 485, dated 13th July 1906, and under clause IV of Government Notification No. 124, dated 17th February 1908, the Commissioner of Ennis makes the following rules in supersession of those contained in Ennis's Notification No. 1, dated 1st January 1909, published on pages 62 to 64 of the Fort St. George Gazette, dated 12th January 1909, Part II, as amended by Notifications No. 10, dated 7th March 1910, and No. 12, dated 5th October 1911.

1. In these rules—
 - (a) "Commissioner" means "Commissioner of Ennis";
 - (b) "Assistant Commissioner" means "Assistant Commissioner of Ennis for Districts" and
 - (c) "Inspector" means the Inspector or Assistant Inspector in charge of the Ennis circle in which the survey is made.
 - (d) "Surveying officer" means the officer duly appointed in control of survey.
 - (e) "Laboratory" means the Commissioner's laboratory in Madras.

2. Any person desirous of obtaining a license for a brewery shall apply to the Assistant Commissioner through the Inspector. The application shall be accompanied by a treasury receipt for Rs. 15 and a full description (hereinafter called an entry) of his premises and utensils, in which the purpose of, and the distinguishing mark on, each room, place and vessel shall be clearly specified. The entry will be checked either by the Inspector or some other officer authorized to inspect breweries, who will certify to the fact of its being correct, and submit it with the brewer's application, the treasury receipt and his remarks to the Assistant Commissioner who, if satisfied with the entry and that the applicant is a fit person to receive a license, will issue a license accordingly.

Persons desirous of constructing new buildings or equipping already existing buildings to be used as brewhouses are advised, before commencing the work, to submit plans of the buildings and descriptions of the plant to the Assistant Commissioner for approval. Any alterations and additions suggested by the latter officer should be duly attended to, and persons neglecting to comply with such suggestions will run the risk of being refused a brewery license.

3. Licenses shall be in such form and for such period as the Commissioner from time to time may prescribe and may be renewed. Each application for renewal shall be made to the Inspector at least one month before the expiration of the license and shall be accompanied by a treasury receipt for Rs. 15. A copy of the entry shall also be filed, unless there has been no change in either the buildings or the plant since the issue of the previous license, in which case it will suffice if the surveying officer endorses that fact upon the application. The Inspector will submit the application with its enclosures to the Assistant Commissioner who, if he sees no reason to the contrary, will issue the license.

4. The surveying officer will take an account of all the operations in the brewery, and it shall be incumbent for him, or for any other officer authorized to inspect brewhouses, to enter the building and visit and examine any room, place or vessel mentioned in the entry at any time either by day or night.

5. All mash-tuns, coppers, coolers, fermenting and mashing or settling vessels shall be so placed and fixed, and underlocks so placed, as to admit of the contents being accurately gauged and measured. Holes being taken into any such vessels shall be gauged jointly by the Inspector and the surveying officer under the rules in force for gauging such vessels, and tables shall be constructed showing the total capacity of each vessel in imperial gallons (in the case of mash-tuns, in imperial bushels) and in the case of mash-tuns, fermenting and mashing or settling vessels, its capacity for each tenth of an inch in depth. In the case of underlocks, coppers and coolers, dimensions tabularly need be constructed. These tables before being taken into use shall be certified by the brewer or his accredited agent to be correct.

6. The name or an abbreviation thereof of each room or vessel shall be conspicuously painted thereon, and where more than one room or vessel is used for the same purpose they shall be distinguished by progressive numbers. Any room or vessel ordered for a specific purpose shall be used for that purpose solely.

7. No repairs shall be executed in either buildings or plant or any alterations shall be made in the position or capacity of any gauged vessel without the sanction in writing of the surveying officer or of the Inspector. Before any vessel so altered can be again taken into use, it shall be re-gauged and new tables shall be constructed, if necessary. In the absence of the Inspector and to avoid delay, such re-gauging shall be effected by the surveying officer and such other officer as the Commissioner may direct, their results being checked by the Inspector or Assistant Commissioner on his next visit to the brewery. No additions either to the buildings or to plant shall be made without the previous consent of the Assistant

Commissioner and, on completion, the existing entry must be withdrawn and a new entry made.

8. Where beer is stored in casks which are used exclusively for storing beer and not for issue from the brewery, such casks shall be numbered consecutively and each shall have marked on both heads its number and capacity which shall be entered in a register to be kept by the brewer in a form prescribed by the Commissioner, and also the number of the lever in which the beer was manufactured. Any cask returned for repair or re-gauging shall be re-gauged before being taken into use again and, if the capacity has been altered, a new entry shall be made in the cask register. The number of the brew shall also be entered on both heads of casks in which beer is issued from the brewery.

9. The surveying officer will be provided by the Department with proper gauging rods and a standard measurer and thermometer. If the brewer questions the correctness of the instruments or the results obtained by the officer, he must put in a written protest immediately. This will be forwarded with his remarks by the officer to the Inspector who, after due enquiry, will report the matter for the notice of the Assistant Commissioner.

10. Each licensed brewer shall keep, in some part of the brewery which has been approved by the Inspector, a brewing book in such form as the Commissioner may prescribe. This book, which is the property of Government, will be supplied to him at the beginning of each quarter and shall be taken up at the end of each quarter by the surveying officer, and it shall be accessible by day or night to all officers authorized to inspect the brewery. In this book the brewer, or some responsible person employed by him, whose name has been approved by the Assistant Commissioner shall correctly enter the particulars of each brewing. The book shall not be in any way defaced or mutilated and the law of it will entail immediate suspension of the brewer's license, and if, on enquiry, the explanation of the brewer is unsatisfactory, his license may be cancelled.

11. The brewer shall enter in the proper column, at least 24 hours before beginning to wash malt or grain or to dissolve sugar, the day and hour of brewing and in the 2nd column the consecutive number of the brew and the word 'Indian' or 'English', as the case may be, with the date and hour of mashing the entry, and at least six hours before the time entered for mashing or dissolving, he shall enter separately in the proper column the quantities of malt or unmalted corn, sugar or glucose and of hops or hop substitutes to be used and the hour when all the wort will be drawn off the grains in the mash-tun. He shall also enter in the appropriate column the dip and gravity of the worts collected, the number and description of the vessel or vessels in which they have been collected and the date and hour of the entry. Such entry shall be made within one hour after the collection has been completed, or if the worts be not collected before 6 p.m., the entry shall be made before 8 next morning. If fermentation has started, the brewer shall enter the true original gravity of the wort. Each entry shall be initialed by the brewer or his agent.

12. Beer shall be brewed from good materials and its quality shall be such as to satisfy the Commissioner. Wort shall not be brewed of a higher gravity than 1.073. Nothing shall be added to beer after it has been brewed and removed to a beer store, except things or other material approved by the Commissioner. Beer in beer stores must not be diluted and any beer found in stores which has been either diluted or in any way adulterated will be liable to forfeiture. The forfeiture of the beer will not relieve the brewer from the penalty of fine or cancellation of license prescribed under rule 93.

13. Every brewer shall execute an agreement binding him for himself, his heirs, legal representatives and assigns to observe the conditions of the license and hypothecating the brewery buildings, machinery, apparatus together with the stock of beer, etc., as security for the payment of all sums which may become due to Government by way of duty, rates, penalties, fines or other payments due under this provision of his license. In case of neglect or refusal to execute agreement as aforesaid within ten days of the date on which the approval of an application for a license shall have been communicated, such approval may be withdrawn and the fee already paid may be forfeited. In lieu of executing the hypothecation deed the brewer may deposit Government promissory notes endorsed to the Collector to such value as the Commissioner may direct.

14. Officers surveying breweries shall make a complete survey of the whole of the brewery plant on every day on which they visit a brewery, showing in the proper columns in a survey book, the form of which will be prescribed by the Commissioner, the condition of each vessel and the dip and gravity of each vessel containing fermenting wort unless such wort shall be firing, when, except in case of suspicion of fraudulent addition of substances neither of addition or removal of wort, the surface need not be broken. A copy of each survey will be made in a smaller book and will be left at the brewery for the information of the brewer.

15. Each brewer shall keep a stock account in such form as may be prescribed by the Commissioner in which he shall daily enter the net quantity of beer brewed by him, the quantity, if any, returned and brought into stock after verification by the surveying officer or other officer authorized to inspect breweries and the total quantity issued. Each issue to any place within the Maritime Provinces shall be accompanied by a permit the counterfoil of which shall be retained in the permit book. Permits shall be consecutively numbered and before any permit book is taken into use it shall be examined by the surveying officer who will certify as to its correctness. No brewer is allowed to issue permits for consignments of beer to be shipped to places outside the Provinces. Applications for such permits should be made to the Collector of the district who, if he sees no reason to the contrary, will grant a permit and send a letter of advice to the officer in charge of the brewery. The permit must accompany the consignment. All such letters of advice and the counterfoils of permits issued by the brewer must be retained for at least a year. The stock book will be checked at least once in each week by the surveying officer; the quantities of beer brewed entered as it being compared with

the entries in his survey book and the quantities of returned beer being compared with the statement of verification by the officer and the issues with the counterfoils of permits issued and with the letters of advice from the Collector, if any.

16. No entry in any of the books kept by a brewer under these rules shall be erased or overwritten. Should it be necessary to correct any entry, a line should be drawn through the incorrect entry in such a manner as to leave it distinctly visible and the amended entry should be inserted above it. Every correction shall be initialed by the person making it at the time and by the surveying officer on his next inspection of the book. Merely clerical or arithmetical errors need not be specially noticed, but in the case of errors which cannot be so classed, the explanation of the brewer should be obtained and submitted to the Inspector with the surveying officer's remarks. A missing or major dividing entry may be cancelled if the brewer does not wish to set upon it, by writing the word "cancelled" across the columns devoted to materials in the brewing book. But if these columns have already been filled in, the figures must not be erased or crossed out and the word must be written in other blank space. In such case, a written explanation should be obtained from the brewer and submitted to the Inspector with the surveying officer's remarks.

17. Samples of wort in any stage of fermentation or of stored beer may be taken for analysis without payment by the surveying officer or any other officer authorized to inspect breweries. Samples of the wort during fermentation shall be taken by the surveying officer, at least once in each quarter, in accordance with such instructions as the Commissioner may issue and shall be forwarded to the Laboratory for analysis. On any other occasion on which samples are taken, either of wort or beer, the officer taking them will submit a special report to the Inspector or the Assistant Commissioner explaining the reasons for sampling and the nature of the analysis required. Samples of brewing materials will be taken only if called for by the Commissioner. When, however, there is a large discrepancy between the quantity of wort or unaltered corn entered in the brewing book and that of the grains in the mash-tun, a sample of the grains should be taken and at once sent for analysis with a report giving a copy of the entry in the brewing book, the dip of the grains in the mash-tun, the quantity represented by the dip and the percentage of increase or decrease. On this report and after examination of the sample, the Commissioner will pass such orders as he thinks fit.

18. The stock of beer in every brewery will be taken at least twice in each year by the Inspector or such other officer as the Commissioner may direct. Stock shall only be taken at other times by the surveying officer or other officer lower in rank than the Inspector, if there is any suspicion of fraudulent practices. On all occasions, the results will be immediately reported to the Assistant Commissioner and in the latter case to the Commissioner through the Assistant Commissioner with the reasons for taking stock. The explanation of the brewer for any excess or deficiency exceeding 1 per cent found in stock should

197. Read and recorded G.O. No. 103, Finance (Madras), dated the 14th March 1925, accepting the suggestion tendered by Sir Alexander MacDonnell, Mr. L. C. Nicholson and Mr. G. W. Chambers of their seats on the Board.

198. Read and approved the Chairman's draft letter to Government submitting for sanction re-appropriation statements of expenditure under the Trust's Revenue and Capital Accounts in 1924-25.

199. Read again Resolution No. 151, dated the 25th October 1924 and Government Order thereon No. No. 557, Finance (Madras), dated the 26th November 1924, sanctioning the suggestion by the Board of the tender of Messrs. The Metropolitan Vulcan Electrical Company, Limited, amounting approximately to Rs. 25,500 for the supply and erection of certain electrical plant required for the provision of two transformer sub-stations and of power mains from the stations in the West Quay.

Read a note by the Chairman stating that a decision as to the plant required for the power mains in the South Quay had been arrived at since the acceptance of the above tender and also that some provision of the layout with a view to provide for certain additional safeguards against break-downs of the supply of power from the stations had been made; Messrs. The Metropolitan Vulcan Electrical Company, Limited, were therefore requested to submit a revised quotation for the whole of the plant

now required and they accordingly submitted a revised quotation amounting approximately to Rs. 79,100. The Chairman recommended that this tender be accepted subject to sanction of Government under section 87 of the Madras Port Trust Act in lieu of the firm's tender previously accepted.

Resolved that, in modification of the sanction accorded to the above-quoted Government Order, Government be asked to sanction the acceptance of the revised quotation amounting approximately to Rs. 79,100 (calculated at a rate of Exchange of Rs. 15 to the pound sterling) given by Messrs. The Metropolitan Vulcan Electrical Company, Limited, for the supply and erection of the electrical plant required by the Trust in connection with the provision of the two sub-stations and the laying of power mains from the stations in the West and the South Quay.

200. Resolved, subject to sanction of Government which is necessary under section 42 (2) of the Madras Port Trust Act to approve of the Trust's Traffic Manager's recommendations for remission of dues, in 1925, amounting to Rs. 2,121-1-4.

201. Read a note by the Chairman circulating a petition, for the grant of a gratuity, from Mr. H. A. Davidson, late Assistant Harbour Master, who was relieved from the Trust's service with effect from 1st January 1924.

Resolved that Mr. Davidson be informed that the Board cannot see their way to grant him a gratuity.

202. Read a note by the Chairman on a memorial from certain grain merchants of Madras, for whom consignments of rice were loaded by S.S. "Elms", a S.S. "Elms" and "Chalmers" which arrived respectively on the 18th and the 24th November 1924 and the 1st and the 2nd December 1924, requesting that they be granted a remission of the penalty tax on dues imposed in respect of a portion of their consignments, the above vessels, which was left lying in the Trust's premises after the expiry of the free days.

In discussion, it was proposed by M.R. By. Divesa Sridhar Govindan Chathoorboojedam Gern and seconded by M.R. By. Rao Bahadur Hatcher Pappiah Chett that the rate of penalty tax on dues levied be reduced to one half the rate at which they had actually been levied. The proposal when put to the vote was not carried.

It was resolved to record the Board's opinion in the effect that the circumstances of the case did not warrant the reduction of the rate of penalty tax on dues imposed on the consignments in question beyond the rate to which it had already been reduced by the Chairman.

203. Read a note by the Deputy Chief Engineer dated the 24th March 1925, reporting the result of the survey of docks and piers in charge of the Engineering Department and recommending that the desiderata found be written off.

CULTIVATION STATEMENT—APRIL TO DECEMBER 1911.

(On an average of the five years ending 1911-12, the area sown from April to December represents 95 per cent of the cultivation on dry lands and 88 per cent of the cultivation on wet lands.)

Grounds—December.—There was no rainfall in the month in the Cuvora, Dacca, Nefara, Chittora, and Salem. The rainfall in the month was up to the average only in Tanjore, Madhav, and the Nilgiris and considerably below the average in the other districts.

Longrice. water was generally sufficient except in parts of Anantapur and South Kanara and the Central districts and the South. The insufficiency of water supply was specially felt in South Arcot, Salem, and Tanjore.

Sowings on dry lands in the month were satisfactory in the Cuvora and Nefara and restricted in most of the other districts, especially in Bellary, Channarayana, and Madhav owing to insufficient rainfall in November. Wetland sowings were satisfactory in the Cuvora and Tanjore and restricted in most of the other districts, especially in Nellore, South Arcot, North Arcot, and Madhav.

The transplantation or sowing of paddy was fairly general in the month in the Cuvora and Central districts and in the South. Other crops sown were ragi in Gundur, Anantapur, Channarayana, Nellore, North Arcot, Salem, Tanjore, and Ramana, horsegram in Bellary, Nellore, Chittora, North Arcot, and Channarayana, and cotton in Channarayana and Ramana.

April to December—Sowings—(a) Dry lands.—The area was six per cent more than the average and 11 per cent more than in the last year. There were slight reductions in Kuzna and South Kanara and general increases in most of the other districts, especially Channarayana, Tanjore, Nellore, Chittora, North Arcot, Salem, Tanjore, and Madhav.

(b) Wet lands.—The area exceeded the average and last year by 5 per cent. There was an appreciable reduction in area in the Cuvora delta and a slight reduction in South Kanara as a result of the Jay Shakti. There was a fairly general increase in most of the other districts, especially the Cuvora, Anantapur, South Arcot, Chittora, North Arcot, Salem, and Madhav.

3. Figures by districts are given in the statement appended.
